Training and Payment Policies:

Registration: Classes are sometimes cancelled when we receive no registrations. In order to guarantee that a class will be held, attendees must pre-register. Walk-ins are welcome, but we cannot notify you in advance if a class is cancelled due to lack of participation if we don't know you are coming. If a class is cancelled, we will notify any registered students 24 hours in advance. We can train no more than 40 students during any class. This is not usually a problem, but pre-registration will prevent any walk-ins over this number from being turned away.

Attendance: Students may not miss more than 10% of any session (not including scheduled breaks) and receive credit for the course.

Refund policy: Turnstone will refund any payments for any classes cancelled. If pre-payment is made and students are not able to attend or class is cancelled, we will refund the payment. If the student fails to complete the class, no refund will be given. The student will be given the opportunity to take the next available class, however.

Examinations for initial courses: For MAP classes requiring passing a written examination, students failing the examination will have the opportunity to review the course materials with the instructor and take a make up examination before leaving that day. Failure of both examinations will require the student to repeat the class.

All classes will be conducted in English.

For all refresher classes, the student must provide proof of attending a refresher or initial course within the previous 2 years of the class being taken. A copy of the student's photo identification card or certificate of training from the trainer, are both acceptable.

Turnstone EH&S Inc.
